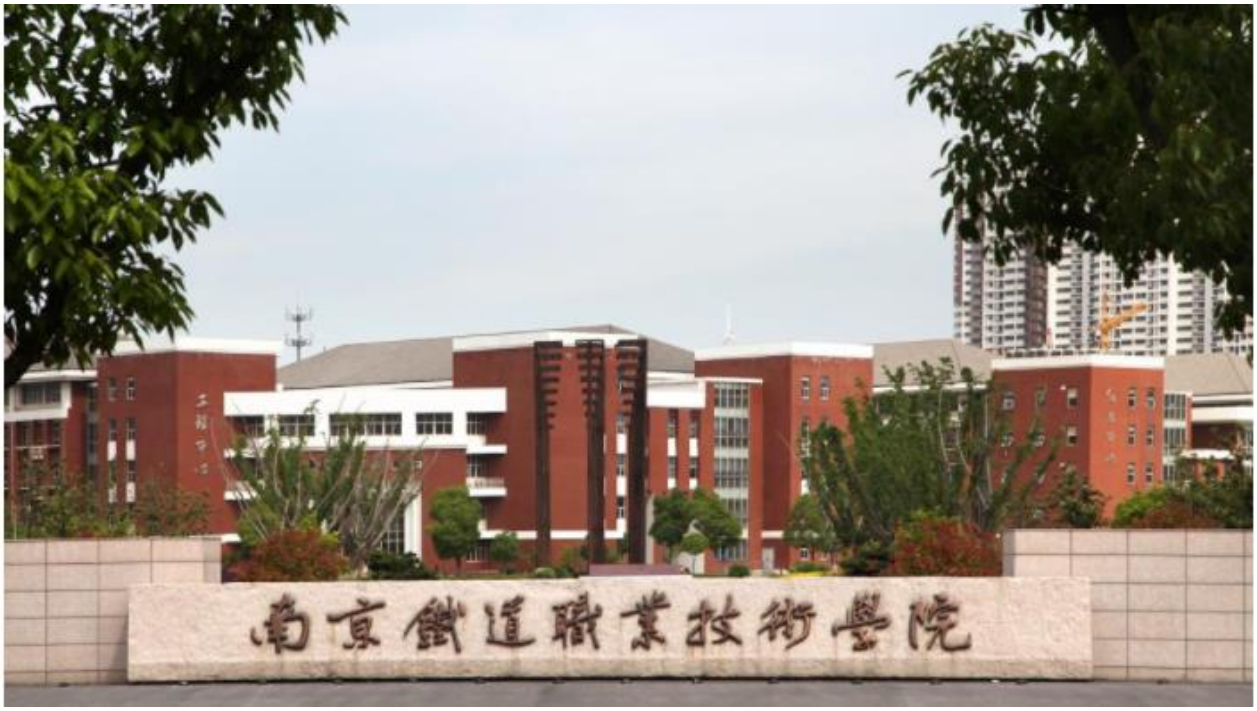
南京铁道职业技术学院
2022 年外国留学生招生简章
2022 Admission Brochure for Overseas Students Applying for Nanjing Vocational Institute of Railway Technology

Ⅰ Brief Introduction



Nanjing Vocational Institute of Railway Technology (NIRT), approved by the Government of Jiangsu Province and filed on record in the National Ministry of Education, is a full-time governmental higher vocational college. Founded in 1941, it locates in the city of Nanjing on the Yangtze River Delta, which is one of the most dynamic and developed regions in China in terms of economy. It's a national high-quality higher learning vocational college, a construction unit of high-level higher vocational schools with Chinese characteristics and specialty group approved by the National Ministry of Education.

NIRT covers an area of 1146 mu (764,000 ㎡), boasting more than 10,000 full time students. The secondary schools in NIRT are School of Transportation Management, School of Communication Signals, School of Locomotive and Car, School of Power Supply and Engineering, School of Finance and Logistics, School of Architecture and Art Design and School of Intelligence Engineering, offers more than 30 majors facing rail transit industry and local economy. NIRT has the leading position of vocational education in the rail transport industry, with other majors such as accounting, art and design in the provincial first-class.

With the first-class training conditions in China, NIRT's high-speed railway training base connects the main railway line and trains can be driven into the campus. It is equipped with true high-speed rail equipment which provides the national first-class training conditions with the integrated six

systems of high-speed railway. It has become a "Jiangsu railway personnel training base", a designated training unit for the China Railway and an international talent training base for the International Association of Transport Universities of Asian-Pacific Countries.
